PROFILE

I am a Bachelor of Science graduate in Computer Science with a strong foundation in programming concepts and logical thinking. My education has equipped me with the skills to approach challenges systematically and find innovative solutions. I possess basic knowledge of programming languages and have a keen interest in problem-solving. I am passionate about technology and eager to continue learning and growing in the field of computer science. My logical mindset allows me to break down complex problems into manageable steps. I look forward to contributing my skills to exciting projects and collaborative teams

PROJECTS

Java Projects

Flappy Bird

- The Java Flappy Bird project is a simple clone of the popular mobile game "Flappy Bird," built using Java and the Swing library for graphics. The main goal is to replicate the core mechanics of the game, where the player controls a bird that continuously moves forward while avoiding obstacles (pipes). Here's a summary of the project:

HTML,CSS & Javascript

- Am 1 year of experience in JavaScript, HTML, and CSS, i have developed a solid foundation in building and styling web pages, manipulating the DOM, creating responsive layouts, and handling user interactions through JavaScript.

EDUCATION

Bachelor of computer science

2023-2026

St Joseph's Arts and Science College

GPA: 3.8 / 4.0
